

## CLINIC SAFETY INFORMATION SUMMARY

Regularized thorough cleaning routine with medical grade disinfectant products

In-depth company wide Communicable Disease prevention plan for staff

Discretionary use of face masks

Plexiglass barriers in reception area

Rescheduling of appointments if experiencing symptoms of illness

Hand washing or sanitization upon entry into the facility

Total Therapy's number one priority is the health and safety of our staff and clients. Should you have any questions or inquiries regarding our clinic safety policy, please do not hesitate to reach out to feedback (@) totaltherapy.ca and we would be happy to assist.

## DISCRETIONARY MASK PROTOCOL

Mask usage in the common areas of Total Therapy is discretionary.

If you would prefer to have your therapist wear a mask, please wear your mask and your therapist will follow suit.

During any given treatment, your particular therapist may require you to wear a mask during your session.
